

Yarn Carriers & Cheese Tubes

Technical data sheet

Detailed BANIX selection sheet with documented family data, dimension guidance and an enquiry checklist.

Contents

Yarn Carriers & Cheese Tubes

Confirm before ordering

Family-level guidance, not a machine-specific approval or a guaranteed performance rating. Dimension examples do not establish availability. The accepted quotation and approved drawing define the supplied product.

Reviewed product-family data. Dimensions, limits and availability are confirmed for the selected configuration.

Yarn Carriers & Cheese Tubes

Paper-based yarn carriers including cheese tubes for open-end spinning and carriers for textured/filament yarn.

Documented family data

Parameter	Recorded options / data
Family	Cylindrical yarn carriers / cheese tubes for winding and handling
Dimensions	Inside diameter, outside diameter, length, wall and end geometry per drawing
Finish / identification	Surface, groove, colour and printing specified for the winding process
Compatibility	Existing 40 FIT reference is a family label; no universal 40 mm dimension or fit is established

Recorded family options and dimensional examples. Values from different variants cannot be combined. Confirm the selected construction, units and operating limits with the BANIX quotation.

Yarn Carriers & Cheese Tubes

Dimension guide

Schematic only, not to scale. Use your drawing to identify the exact measuring points.

Dimensions and information for your enquiry

Dimensions and information for your enquiry	Your specification
Machine and yarn process	_____
Inside diameter and length / mm	_____
Wall thickness and outside diameter / mm	_____
Slots, grooves and end geometry	_____
Yarn, package mass and tension	_____
Surface, colour and identification	_____

Family-level guidance, not a machine-specific approval or a guaranteed performance rating. Dimension examples do not establish availability. The accepted quotation and approved drawing define the supplied product.
